

INNOVATING TECHNOLOGY TO SAVE AND ENRICH LIVES

*"All staff should have the capability
to initiate emergency protocols."*

Partner Alliance for Safer Schools

What is CrisisAlert™?

CrisisAlert™ is a crisis management platform that allows anyone to request assistance or initiate emergency protocols from anywhere instantly, because in a crisis: Every. Second. Matters.

It leverages mobile and desktop applications along with a mesh network of Smart ID badges, strobes and locator beacons to provide campus and district-wide protection.

Solution Features:

- Wearable Personal Panic Button
- Instant Notification to Responders
- Campus-wide, Indoor & Outdoor Coverage
- Independent of Wifi and Cellular Networks
- "No-drill", Simple Deployment - Install in Hours

488,000

Students & Staff Protected

119,000

Devices Deployed

430,000,000

Square Feet Covered

CrisisAlert is S.A.F.E

- SIMPLE INSTALLATION & MAINTENANCE
- ACTIONABLE, INSTANT COMMUNICATION
- FULL COVERAGE
- EMPOWERS EVERYONE

Frequently Asked Questions

What happens when a lockdown is activated?

When a lockdown or other campus-wide alert is triggered, students and staff members receive visual and auditory cues based on district emergency protocols to ensure safe outcomes.

Will I receive notification of an issue or incident if I am off the school campus?

Yes, regardless of where you are in the world, you will receive the notification when you are a school or district designated personnel.

Can I remotely lock down a school or schools, by region?

Yes, you can lockdown a school or region of schools for any incident or crisis.

Does it take a long time to install a school?

No, we minimize time on site by pre-provisioning the system for an efficient installation that's completed in days, not weeks.

Can I use this for Safety Drills, to track progress and set benchmarks?

Yes, you can use this for state and district-required drills, collect data regarding response times, frequency and type of alert.

Would the bus drivers know if there is a campus-wide incident, so they can re-route buses?

Yes, they would have information and visual notifications to re-route buses.

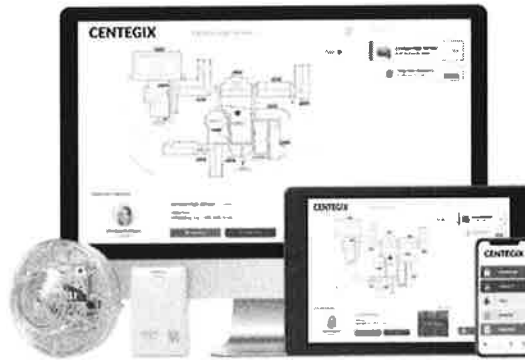

Am I protected outside?

Yes, our proprietary technology provides campus-wide protection, independent of existing WiFi, cellular network or other infrastructure.

How do I know if help is on the way?

Our Alert Badge sends vibration feedback to the user to signal that the alert has been received and help is on the way.

Smart. Safe. Secure.

Our CrisisAlert Solution enables *all* staff members to initiate an alert and automatically disseminate critical information quickly and reliably *anywhere* on the school campus, inside or outside the building.

Features

Alert Badge

Enable every staff member to immediately call for help, or alert for a medical emergency, or crisis situation.

Real-Time Locating

Pinpoint locating that relays information about who needs help and exactly where they are located.

Communicating Critical Information

Immediate visual and audio notifications of an emergency to all building occupants.

Campus-wide Protection

Proprietary technology casts a protective web over the entire campus, independent of existing WiFi, network or infrastructure.

Technology

Alert Badge

Wearable badge designed for instant accessibility and multi-function alerting capability.

Alert Strobe

Battery-powered Alert Strobes provide locating capability and high-intensity visual alerting.

Alert Hub

Wireless communication appliance with built-in 24-hour battery backup in the event of a power outage.

Gateway

Headend device that coordinates our private, proprietary mesh network.
